

# **APOLLO® NOW HAVE ANOTHER CHOICE IN STATE OF THE ART ROOF SHEETING**

**LATEST  
RELEASE!**

## **Apollo Unilink 2000 MK II® is manufactured to last!**

When you select an Apollo® home addition you are not only building a better lifestyle, you are building one that lasts.

After many years of research and development Apollo® have created the Apollo Unilink 2000 Mk II® roll formed roof sheeting. Manufactured from high quality Australian made steel. The Mk II® is thicker than industry standards constructed from G550 hi tensile .48 gauge steel. Allowing the same spanning capacity as the Apollo Unilink 2000®.

## **Apollo Unilink 2000 MK II® Provides more light & keeps you cool!**

The Apollo Unilink Mk II® roof sheeting is coated with the exclusive "Apollo Durasheen®" paint finish using a 55% gloss coating on top and 80% high gloss on the under side. The high gloss surface on top reflects the solar infrared rays and provides a cooler area in summer, while the high gloss finish underneath reflects more light into your home.

## **Apollo Unilink 2000 MK II® is virtually maintenance free!**

When you build using the exclusive Apollo Unilink 2000 Mk II® with the Apollo Durasheen® paint finish your Apollo® home addition is virtually maintenance free.

The Apollo Durasheen® 80% high gloss underside is resilient to mould growth and there's no need to paint, which means your home addition will always look as good as the day it was built.

We're so confident that the Apollo Durasheen® finish will stand the test of time we have backed it with a 15 year warranty.
