Outdoor lifestyle

Love the way you live

Creating an outdoor space is about more than simply adding value to your property. This is your home, and home matters.

We understand how important it is to get your outdoor addition right. As a family-owned business, we are genuinely committed to elevating the experience you have with us.

From the time we take to understand your needs through to installing and delivering every nut and bolt, quality is at the forefront of our minds. Operating since 1995, we are proud to be considered a market leader in roofing and patio construction.

Outdoor solutions

Enhance your lifestyle

Our experienced team will work with you to design an outdoor space that maximises your lifestyle and enables you to enjoy the outside of your home all year round.

Increasing your property value

Looking to increase your property value? Transform your lacklustre outdoor area into something that can be used all year round. We build exceptional outdoor living spaces that enhance your lifestyle while acting as an investment in your future.

Bringing your family and friends together

Create precious memories with friends and family that you will cherish for years to come with an outdoor living space that allows you to do what matters most – spend time with loved ones. We will work with you to create a comfortable and practical space the whole family can enjoy.

Expanding your living space

Expand your living space and maximise your lifestyle by adding a comfortable outdoor living space that allows you to bring the outside in. With our clever designs that seamlessly blend the outside and inside of your home, you can spend your days outside regardless of the weather. With an enclosed patio, you can open your screens to enjoy fresh breezes and daylight when it's warm without suffering under the harsh Australian sun. Close them in cold or inclement weather to continue enjoying the outside no matter the temperature.

Weather protection

Transform your backyard into an inviting area that can be enjoyed year round. Relax in a comfortable outdoor space uniquely designed to your lifestyle. With our Enclosures, you can sit outside regardless of whether it's hot, cold, wet or windy, while protecting the space from birds, dust, dirt or weather.

Upgrading your existing patio

Turn your existing patio into a more comfortable living space you won't want to leave. Whether you're currently putting up with a dark, hot, cold, windy, dingy or simply uninviting patio space, we have a range of outdoor solutions to suit any budget. Taking into account the position and dimensions of your outdoor space, we will work together to figure out the ideal solution and recommend a design to best suit your needs.

Patios

A space for the whole family to enjoy

Transform un-used outdoor space into a versatile and functional patio area.

Whether you are looking to create an entertainment area, add value to your property or simply create a space to relax outdoors, Apollo Patios can help bring your vision to life.

Your new patio can be custom designed to achieve seamless integration with your home and create a comfortable outdoor area to suit your lifestyle.

From permits to paint finishes, we've got you covered.

With a clever range of designs and finishes available, your Apollo Patios home addition will be architecturally designed to match the style of your home. Our unique building system creates a beautiful clean and modern ceiling look, that hides away structural elements such as support struts or beams.

15-Year Warranty
on Apollo roofing

As both the manufacturers and the installers, you get an easy, streamlined experience with one point of contact and a single, simple warranty on your new roofing.

Apollo roof sheeting is resilient to mould growth, translating to easy maintenance for you.

Decorative Screens

Enhance your patio, pergola or outdoor space with Decorative Panels

Add privacy, colour and flair to your outdoor addition with a dimension of texture. Available in a selection of patterns and colours.

Enclosures

Make your patio usable all year round

Close your patio to keep the cold out and the warmth in

Fully open your patio to enjoy warm weather and cool breezes

Transition between open to closed with ease

Protect yourself and your family from pesky insects

Add instant equity to your home

Create your ideal sanctuary to relax in and enjoy any time you want.

Designed to provide an outdoor-indoor living experience, patio enclosures provide a seamless transition between your home and outdoor space. With a variety of glass and screen systems to choose from, you can create your own oasis that gives you more comfort no matter the weather.

Whether you are looking for something modern or traditional to match your home, we have something to suit your lifestyle and taste.

Decks

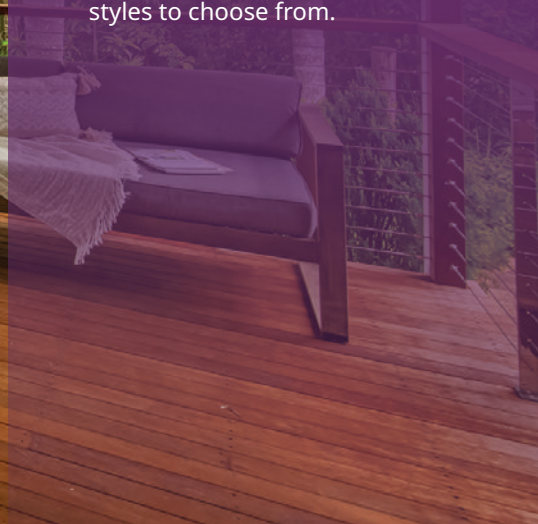

Custom designed timber decks

Live your best life and entertain in style.

Transform unused backyard space into a functional place for family gatherings, an expansive area for entertaining, or an elevated platform to capture scenic views. Whatever your dream, Apollo Patios can turn your vision into a reality.

Complete your deck by adding a protective patio roof custom designed to complement the character of your home. We also offer a variety of balustrade styles to choose from.

Slats and Louvres

Add a stylish finishing touch

For additional privacy and protection from the elements, add a stylish touch to your new outdoor living area with louvres and slats.

Louvres offer protection from weather, while adding a modern feel to your outdoor space.

Slats allow light in with moderate protection from weather and passing eyes.

Our powder-coated aluminium finish eliminates costly maintenance issues such as painting, cracking and warping as so commonly experienced with timber.

We can manufacture and install in a vertical or horizontal configuration.

Carports

Protect your vehicles with a carport or shelter

Year-round protection for your vehicles.

Adding a carport offers you the opportunity to convert your garage into another room, increase your storage space or simply house additional cars. However you intend to use them, our stylish yet robust and durable carports are designed to protect your vehicles, and other items on your property, from the harsh Australian climate and potentially damaging weather.

Choose from various roofing designs, colours, sizes and shapes to ensure your new carport perfectly complements your home, adding to the street appeal and value of your property.

Our experienced Design Consultants are familiar with local council regulations and can design a functional carport to make the best use of your driveway while adhering to building standards. Plus, we take care of the council application process on your behalf.

Shelters

Endless options for your caravan, camper or boat

Shelter larger vehicles from the elements.

Larger assets are usually a sizable investment, so it makes sense to keep them protected between family fishing and camping trips. We have a range of options to house your boat, caravan, machinery, trailer, truck – or whatever you need – away from potentially damaging weather.

Not only does adding a carport or shelter safeguard the value of your vehicles, but it also adds value to your property.

Our experienced team will design and build a highly functional shelter that suits your driveway and entrance to your home.

Total system

Apollo Patios roofing solutions

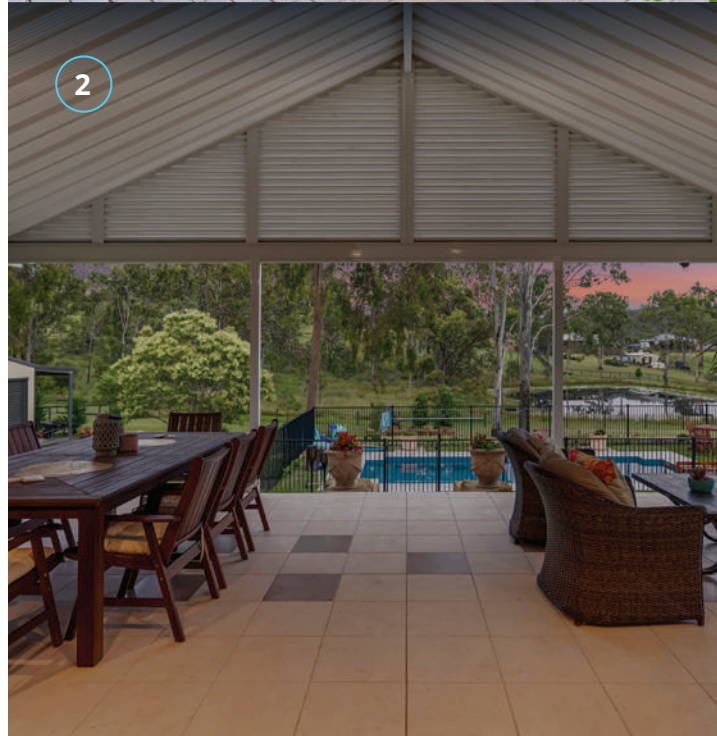

Apollo Patios is one of Australia's leading manufacturers of roofing products and systems.

We design, engineer, manufacture and build our products to last and test them rigorously to deliver to the highest standards.

Our roofing is manufactured locally in each region we service, and is delivered directly to your home, ready for installation. Your roofing panels will be cut to the required length for your new home addition, speeding up the installation process and reducing wastage.

Apollo Patios manufactures three types of roof sheeting:

1. Apollo Unilink 2000 Mark II® rollformed roof sheeting
2. Apollo Unilink 2000® broadspan roof profile
3. Apollo® Insulated Panel in either Trimlink and Corrugated roof profile

Single Skin roofing

Apollo Unilink Single Skin roofing is made from high quality High tensile steel and is an affordable roofing option designed specifically for creating outdoor living spaces.

The unique profile designs allow for one of the largest single skin roof spans available. Spans of up to 4.7 metres are possible with no unsightly rafters or battens.

1

Apollo Unilink 2000 MK II®

Coverage:
QLD 302mm and NSW
333mm

0.48mm BMT steel G550
Zincalume coated

2

Apollo Unilink 2000®

Coverage:
450mm

0.42mm BMT steel G550
Zincalume coated

Design versatility

Apollo Insulated Panel Roofing

We design, engineer and manufacture our own Insulated Roofing to provide year-round comfort and ensure exceptional quality.

Insulated panels are a complete roof and ceiling in one, with large spanning capabilities that reduce the amount of under structure support required.

Insulated panel roofing offers excellent noise absorption and superior thermal qualities. Our comprehensive engineering ensures our panel has a superior span unsupported, without unsightly beams.

We offer a range of thicknesses from 50mm – 200mm to suit your required space. Our panels have an integrated services channel to add electrical cable ready for fans and lighting to be installed by a qualified electrician.

Superior Strength
Lightweight and strong over large spans

Superior Span
Less unsightly under structure

Thermal Rating
Increases comfort levels, plus reduces heating and cooling requirements

Range of Colours
Available in a variety of colours to suit your home

3 Our Insulated Roofing is available in two profiles:

Trimlink profile

Corrugated profile
